

Sorry

Chico DeBarge

I never met her yeah
I never met her yeah
Woah, woah, woah, woah
Woah, woah, woah, woah
Ah, yes, ah I know what you're going through
I never meant to hurt you, I'm sorry, so sorry
I know what you're going through
I never meant to hurt you, I'm sorry, so sorry Our reality should have been you and I
I don't know why I was blind to have another on the side
Every move that she make I called out your name
Knowin' the truth number one in my life, I know I know what you're going through
I never meant to hurt you, I'm sorry, so sorry
I know what you're going through
I never meant to hurt you, I'm sorry, so sorry Now I know there are times when a man must cry
To get down low, feelings locked inside
And baby come back home, 'cause I don't wanna be alone
It hurts me to want you so bad and I know I know what you're going through
I never meant to hurt you, I'm sorry, so sorry
I know what you're going through
I never meant to hurt you, I'm sorry, so sorry Yes I've been around the world and I, I, I
Can't seem to find the kind of love that I can call all mine
We have to turn it up
Reverse and make the changes of our sex [Incomprehensible] Bye-de-bye-bye, so as I creep all night and daylight
Tony Box and The Woff know how many ways
It's time to get large
I give 'em up to Chico De Barge I know what you're going through
I never meant to hurt you, I'm sorry, so sorry
I know what you're going through
I never meant to hurt you, I'm sorry, so sorry I know what you're going through
I never meant to hurt you, I'm sorry, so sorry
I know what you're going through
I never meant to hurt you, I'm sorry, so sorry I know what you're going through
I never meant to hurt you, I'm sorry, so sorry
I know what you're going through
I never meant to hurt you, I'm sorry, so sorry Hey, hey, I never meant to, I never meant to hurt, yeah
I never meant to, yeah, I never meant to, yeah
I know for now, I never meant to hurt you
