Fiening You

Omarion

(Baby girl)
I've been noticin', you been goin'
In and out when you feel the need, baby
But I can't help but to wonder where
Where you are, oh noSee, I've done my dirt, chasin' all them skirts
All around the world, I've done my due
But when it comes to you, I will lose my head
But it's hard to sleep aloneAnd I know when I'm away, you miss me all day
You're driving me crazy, girl, I'm fiening you
Don't you leave me all alone, I'll be back for sure
Just so that you know, girl, I'm fiening youWhen you need to be relaxed, lay down on your back
Know who you can ask 'cause I'm fiening you
Baby, know all through the day, you keep me in my place
One thought of your face and I'm fiening youWhen you're not around, baby girl, I'm down and out
'Cause I'm thinkin' about you, woah
Are you creepin' on me? Baby, just let me know
Who it is, what it is, right now
'For it get real ugly, this situation bugs me
Tell me if you love me or if this means nothin', woah yeahOh, when I'm away
And I know when I'm away, you miss me all day
You're driving me crazy, girl, I'm fiening you
Don't you leave me all alone, I'll be back for sure
Just so that you know, girl, I'm fiening youWhen you need to be relaxed, lay down on your back
Know who you can ask 'cause I'm fiening you
Baby, know all through the day, you keep me in my place
One thought of your face and I'm fiening youYou know what I'm about, I'm not just a thug
He's tryin' to turn you out, I'm there for you, girl
I'm found, what it is, said what it is
I wanna let you know that I'm fiening youYou know what I'm about, I'm not just a thug
He's tryin' to turn you out, I'm there for you, girl
I'm found, what it is, said what it is
I wanna let you know that I'm fiening youAnd I know when I'm away, you miss me all day
You're driving me crazy, girl, I'm fiening you
Don't you leave me all alone, I'll be back for sure
Just so that you know, girl, I'm fiening youWhen you need to be relaxed, lay down on your back
Know who you can ask 'cause I'm fiening you
Baby, know all through the day, you keep me in my place
One thought of your face and I'm fiening you
Said I'm fiening you
