

Epiphany

Angela Predhomme

Epiphany

Star light, star bright
Heed my wish tonight
Hear my desires
Make them realize
And though I work long and try my hardest
Parts remain unfulfilled
And though I pray hard, yet each tomorrow
Still won't bend to my will

(prechorus)

I wait with haste
Now I see
That faith is what I need

(chorus)

It's an epiphany
Epiphany of learning to let go
It's my epiphany
I finally see that I can trust the flow
I know, I know . . . to let go

(verse 2)

Long nights, wound tight
Worry's got me fried
Life won't comply
Fear obscures my sight
Although I've done well, my sheer ambition
Can't make planets align
And now I just can't escape admitting
True control isn't mine

(repeat prechorus)

(chorus 2x)
