

# Born In a Storm

## Deacon Blue

That hurricane day  
Will soon pass away  
And someone will sweep  
All the jetsam back into the bay And you'll come down  
Like you always did  
And knock on my door  
Like the big bad wind Born in a storm  
Is that the only excuse you can give?  
Born in a storm  
Is that all you're gonna live? Born in a storm  
Is that the only excuse you can give?  
Born in a storm  
Is that all you're gonna live?
