

# This Town

Bryan White

This town doesn't understand  
Two people makin' dreams and plans  
They say were much too young  
In this town This towns full of narrow minds  
Cant see beyond the city limit signs  
They close the bedroom blinds  
In this town I've done some thinkin' and I realize  
Theres more than dairy queens and Friday nights  
While were still young, we've gotta get away  
Together we can make our break From this town wordll get around  
Two renegades escaped  
No, they couldn't keep us down  
And this town will be a dime store memory  
Baby, I just know it  
Theres a better place to be than this town  
Oh, this town Now this towns got a factory  
Not much future here for you and me  
Its as far as they can see  
In this town I've heard the wind blowin' at my door  
Voices tellin' me theres so much more  
Its easy to get bored  
In this town I've just got to see those those city lights  
Its time we spread our wings and learn to fly  
Theyll never catch us if we disappear  
Oh the interstate is much to near To this town wordll get around  
Two renegades escaped  
No, they couldn't keep us down  
And this town will be a dime store memory  
Baby, I just know it  
Theres a better place to be than this town  
Oh, this town Cant you just hear them talkin' their righteous words  
Burnin' down the wire  
What do we care what they think now  
Thinkin's not allowed in this town This town wordll get around  
Two renegades escaped  
No, they couldn't keep us down  
And this town will be a dime store memory  
Baby, I just know it  
Theres a better place to be than this town

Oh, this townThis town

This town

This town
