

Walk On (Wildest Dreams)

Jimi Jamison

The wick is what they leave behind
Looking back what's the use
The place is only in your mind
It's your time win or lose

So you can sink, fight, or swim
Fighting for your life
Don't give up don't give in
Til you get it right

The problem's always in your hands
Now it is up to you

You got to walk on walk through the fire
Come on and reach higher and higher
Walk on try to stay connected
to your wildest dreams

Walk on walk through the fire
Come on and reach higher and higher
Walk on try to stay connected
to your wildest dreams

Everything is on its way
Show your place who you are
Believers never hide away
Then they come to take it far

You can use everything as a stepping stone
Cause your rising dive in to the danger zone
The power's always in your hands
Now it's all up to you

You got to walk on walk through the fire
Come on and reach higher and higher
Walk on try to stay connected
to your wildest dreams

Walk on walk through the fire
Come on and reach higher and higher

Walk on try to stay connected
to your wildest dreams

And when the stars they all align
we are both covered by
This could be our time

Walk on walk through the fire
Come on and reach higher and higher
Walk on try to stay connected
to your wildest dreams

Walk on walk through the fire
Come on and reach higher and higher
Walk on try to stay connected
to your wildest dreams

Hold on for your life
It's your chance to take it
Hold on this time
I know you're gonna make it
Hold on to your wildest dreams
