

# Lake Michigan - Radio Edit

## Rogue Wave

Heaven is a switchboard that you want to fight  
She would even miss you if you taught her sight  
Power politician leaning to the right  
Baby's got a trust fund  
That she'll want to go off like that  
Get off of my stack  
Leave a little window  
Get off of my stack Now we wear same-colored yellow uniforms  
Sky is burning, but at least we know we're warm  
Go and run yourself a million miles  
Hoping that the colors run out  
And you go off like that  
Get off of my stack  
Leave a little window  
Get off of my stack  
You can never see yourself  
Ringing all around it  
You can never see yourself  
Ringing all around it  
You can never see yourself  
Ringing all around it  
You can never see yourself  
Ringing all around it  
You can never see yourself  
Ringing all around it  
You can never see yourself  
Ringing all around it  
No one  
No one  
Michigan  
You labored  
You labored  
Michigan  
Not another payoff  
Get off of my stack  
Leave a little window  
Get off of my stack  
You know you can do  
Get off of my stack  
Stack Michigan, Michigan, Michigan, Michigan

Michigan, Michigan, Michigan, Michigan

Michigan, Michigan, Michigan, Michigan (You can never see yourself ringing all around it)

Michigan, Michigan, Michigan, Michigan (You can never see yourself ringing all around it)
