

# Answer to Yourself

## The Soft Pack

You gotta answer to yourself  
You can't depend on anyone else  
You gotta know where you stand  
And what's in your hands  
Yeah you gotta answer to yourself

You gotta write down what you know  
You gotta make sure that it's known  
Because they're coming along to see what you've done  
And they're gonna claim it for their own

You got a rabbit in your hat  
You got a few tricks up your sleeve  
Don't get stuck in a rut  
Or stuck in the same  
You got exactly what you need

You got a talent don't you know?  
You're more talented than you know  
And you give it a shot  
And give it the time  
And be surprised how far it goes

But I think I'm gonna die  
Before I see my time  
But I think I'm gonna die  
Trying anyway

You gotta answer to yourself  
2 days a week outside yourself  
You take an hour a day, an hour a day  
And you don't respond to anyone else

You got a few things on your shelf  
You got to look through for yourself  
You gotta choose what to read  
Choose what to believe  
And you don't take it from anyone else

But I think I'm gonna die

Before I see my time  
But I think I'm gonna die  
Trying anyway
