

# Love Enslaves

## Evenoire

Desperate voice  
Restless cry in the night  
They say she lost all  
'Cause she refused love So many kings  
Tried to possess her reign  
So many lies they told  
To charm her heart Love enslaves  
Makes you blind  
I don't want to feel like this  
Love makes you weak  
Destroys your mind  
I'll keep it far away  
Nobody will  
Weaken my light  
I'll live my life  
Alone Don't be afraid of your loneliness  
Defend yourself and  
Fight to keep safe your identity  
No one will do it for you Hard we will fight  
I'm the queen, your guide  
I won't give up  
For freedom I'll die The time has come  
Water's turning to red  
Our souls become one  
With the bleeding lake  
Love enslaves  
Makes you blind  
I don't want to feel like this  
Love makes you weak  
Destroys your mind  
I'll keep it far away No man will ever  
Trap my heart  
I'll live my life  
Alone Don't be afraid of your loneliness  
Defend yourself and  
Fight to keep safe your identity  
No one will do it for you
