

# Voice of the Soul

## Dokken

Can you see the soul / through a window in your mind  
Can you see the darkness that was left me over time  
    Bordering on sadness / no tranquility  
Look through my mirror and you'll see  
    [so long] a vision come and gone  
    [inside] nothing was clear  
    Saving grace / forgotten road  
    I was lost / but now I'm home  
    Saving grace / a ray of hope  
    When I hear a voice of the soul  
Sold my religion / sold my candles too  
Knees have been bleeding / praying over you  
I search the heavens / all I ever see  
    Dust from the ashes / misery  
[rise up] sleeping with misfortune  
[temptation] a mirror of myself  
    Saving grace / forgotten road  
    I was lost / but now I'm home  
    Saving grace / a ray of hope  
    When I hear a voice of the soul  
When the light shines above me  
    And casts a shadow of myself  
    Look to skies that surround me  
Embrace the one that speaks inside  
    Delivered unto self  
    Saving grace a ray of hope  
When I hear the voice [of the soul]  
    [voice of the soul]  
    Saving grace  
    [voice of the soul]  
    When I hear the voice  
Hear the voice of the soul
