Flight Of The Superstar

Cold(Superfiction)

Every time I see the stars shine down
I think of her
The life she lives today
Made a deal to trade her life for fame
A super star inside her when she playsDid you see her flow
Did you see a spark
Did you see her go
Did she break your heartDid you see her flow
Did you see a spark
Did you see her go
Did she break your heartOn a plane they say to take the world
To heal our souls despite her own heart break
Destination unknown every day
The lights on her
Tonight her home's the stageDid you see her flow
Did you see a spark
Did you see her go
Did she break your heartDid you see her flow
Did you see a spark
Did you see her go
Did she break your heartCan you see her flow
Can you see a spark
Did you see her go
Shines like a star
Like a star
Shining like a star
