

Laser Advice

Mad Dog Loose

I'm selling this song
To the ones who tell me
The right from wrong
Must have been blind
Cosmopolitan rescue
Is down in my mind
Fooling around
And scratching my bones
As a favourite sound
Must have been blind
Multi-coloured picture
All down in my mind
Must have been blind
Must have been kind
Must have been kind
But you're so nice
You're flirting on ice
Sure laser advice
But you're running in vain
Sober up
Stories will keep you awake
Must have been blind
Must have been kind
