

# The Lost Get Loud

## Elektrik People

I like the way she feels,  
Her chemicals,  
I take them down,  
We dance like soldiers,  
Hot cigarette, in a smoky town,  
Stick around, the lost get loud just trying to get found.  
BabyOhhhhh,  
And what about love?Called you my valentine,  
In a mystic swoon,  
Reminiscent of our mission not to leave your room,  
Wanna talk alone,  
'Cause we both groan,  
You stick around the lost get loud  
Just trying to get foundWhat about love?  
Temptation in the room,  
What about love?  
No time to win or lose  
What about love?  
Strangers ain't enough?  
What about love?  
When two hearts ain't enough?  
What about love?  
OhhhI like the way she feels,  
Her chemicals,  
I take them down.And what about love?  
Temptation in the room,  
And What about love?  
No time to win or lose  
And what about love?  
Strangers ain't enough?  
And what about love?  
Until you you've seen enoughOhhhh....
