

# Glockenpop

## Spiderbait

Singing is easy if you can remember the tune  
It can be something to do on a bright afternoon  
Singing in sunshine and whistle of sweet melody  
I'm singing for you and I hope that you're singing for me Just try to remember  
Words go together  
Songs last forever  
Nothing can be together  
For you You can be happy when everyone's singing your song  
And think of the cash you can make when they all sing along  
It doesn't matter if all of your songs sound the same  
Cos people are happy to hear them over and over and over again Just try to remember  
Words go together  
Songs last forever  
Nothing can be together  
For you
