

# Let's Go Back (Cause & Affect Remix)

## Majestic

With the mix and blend  
With the mix and blend (mix and, mix and blend)  
With the mix and blend  
With the mix and blend (I'm going in) Let's go back, back to the days of snapback caps  
Before Steve Jobs was the real Big Mac  
Go Mac D's and spend two pound  
Get filled up and you'll get change back  
Back to the days of shirts and shoes  
Enfield Town meet News and Chews  
Phones back then just call me with a SIM  
No BBM, we were barely texting  
Face off ting, 51-10  
Eros nightclub on the A10  
HLC with the mix and blend  
Toys R Us working at the weekend  
Let's go back, back in the day  
You could drive round London and not have to pay  
Jump on the bus, it was 40p  
Buying vinyls by D&D  
Volume six, diamond rings  
Wearing a cap with a gelled down fringe  
Looking back them days were jokes  
Sorry cigarettes them man had smoked  
We can't go back, that's in the past  
When I reminisce now, that's why the laugh  
Bring on the future, live for the day  
I've been doing music come what, May?  
I don't come from the old school  
But I gotta big up the oldskool  
Reminiscing of the times I was younger  
To this date I've still got the hunger Rudeboy dun know, kill a man's sound with the bigger boy flow  
Wanna see the gyal dem wine down low  
I wanna [?] tunes by Pay As You Go  
So Solid crew, Oxide, Neutrino  
Before Dizzee Rascal ever made "Ho"  
Back when record shops used to earn dough  
When Camden Palace was never Koko  
Raving crew used to shout BOH!  
I'm old school like Nike Air Max

Back in the day we rinsed the same packs  
For exposure, some say liberty  
Northfield market, I'd buy two or three  
So many tapes of so many raves  
I was only a kid then but they were the days  
Used to get hyped from hearing a deep set  
Being too young is my biggest regret  
I missed out on so many things  
Like Liberty Lara mixing diamond rings  
Ruffcut Lloyd dropping Anthill Mob  
DJ EZ breaking in Todd  
I never got to see Tuff Jam mix  
I never got to hear Charlie Brown spit  
If I was the Doctor and had the TARDIS  
I'd play [?] Heartless I'm old school like 7" vinyl  
And I believe in the ten year cycle  
Of music comes and music go  
Wanna be an MC? Keep on your toes  
Never, never know who's watching you  
When you're on the mic up in the venue  
Could be a next man, ready to bite you  
Want to be an MC and take your title?  
No way, ain't gonna happen  
They can't be written so you can never [?]  
My lyric on mine, yours on yours  
I got the lyric to make the crowd roar cuh  
I'm old school like back in the day  
When the Fresh Prince had the high tops in fade  
1990s, garage was the lick  
Guccis and champers, we would sip
