

I Can't Live A Dream

The Osmonds

The day that you moved away, life was so empty
All I had left, was your memory (memory-memory)
Livin' it seems what was left, was a dream
A dream of the way it used to be

But I can't live a dream
Anymore that I can live forever
Anymore that I can climb a mountain to the sun (to the sun)
No I can't live a dream
Anymore that I can move a mountain
Anymore that I can live my life, without you
(Can't live no I can't live no I can't live no no no no)

All of the things I've done, leaving me lonely
All of the nights I've missing you only (lonely-lonely)
I spend my time, with one thing on my mind
Just closing my eyes, dreaming of you!

But I can't live a dream
Anymore that I can live forever
Anymore that I can climb a mountain to the sun (to the sun)
I can't live a dream
Anymore than I can live forever
Anymore that I can climb a mountain to the sun (to the sun)
Noo I can't live a dream
Anymore that I can move a mountain
Anymore that I can live my life without you
