Come Closer

Room Eleven

[Verse 1:]A wind is blowing and a fire's loose
I couldn't find the words to call a truce
And tore the temple down to let the spirit rise..ooo
In the sound of the storm
I can hear just one voice
[Refrain:]All over
Let us all come closer
[Verse 2:]There is nowere to touch that doesn't hurt
There is nowere that I can't look that isn't blurred
Wirh all the righteousness and all the holy words...ooo
In the sound of the storm
I can hear just one voice
[Refrain:]All over
When the heart sinks lower

And the healing slower
Let us all come over
[Verse 3:]I need a hand for
A thread of peace and a send of hope
I will raise my eyes to see more
Speak a truth and we shall know...ooo
In the light of one choice
We will sing with one voice
[Refrain:]All over
When the heart sinks lower
And the healing slower
Let us all come over
[Verse 4:]That is where we are
That is who we are
That is all we are
