

Synthetic Rug

De La Montagne

I try to write to this girl that i like
Have you seen her hips when she puts her amp in her car
Is it the girl from the video clip
You show me last night back on after a long walk trip
Emoes are jumping in flocks
Like boats are followed by dolphin and sharks
I wish she could know my name
Maybe she've heard some song that i've made
I'm on my rug
Synthetic rug
TV is on
But there's no sound
Staring at my elbow from a weird angle
I wonder if i could be more tangled
With you
