

Small Hands

Barrett Johnson

we're in this city together
do you believe there's such things forever

Small Hands

if i could convince you
that there was a heaven
for people like us too
would you believe me
would you believe me
if i said it could be you
would you believe that it was true
cause you're not alone
what you're going through
people change
you can too
you look surprised
i thought you knew
that people break down
you can too
just give it a chance
just give it a chance
and change you too

I love the sound of your laughter
I love you tomorrow and the day after

Do you believe me
Would you believe me
If I say it could be you
Do you believe it is true
Cause you are not alone oh
What you have going thru
People change, you can too
You looked surprise if I thought you knew
People breakdown, you can too
Just give it a chance, just give it a chance
It will change you too
