Selfish Song

drumfish

Im wondering where Im going
Im wondering where Im gonna be
Some people say Im falling
Im sorry I tend not to agreeIf you wish you can come with me
Theres plenty of room in my life
Needless apprehension
Another year of senseless strifeCant you see Im happy here
Cant you see its nothing you need fear
Im just trying to do what I do
Why cant I be me and be with youMake a small adjustment
A pocket full of compromise
A selfless perspective
You cant see through my eyesRun away from me if you must
Think carefully about what it is that you do
Would you have me life with regret
You know Id never ask that of youWhy do you say its pointless
Why do you say we cannot live this way
We can be together
Commitments we need not betrayIts not what you say here
It is what you do
And I cant take this
Its eating me alive and I saySing a selfish song
