

The Mystery of Love

Secret Sphere

[Aurienne (Tristan):]

Hold on every day,

I hear your whisper - Until the end of time... -

like the day when my.. dream came true -

I felt your essence becoming mine

in the heat of the moment[PRE CHORUS:]

[Aurienne (Tristan):]

For your kiss, I'd die

I'm standing by the window

waiting for my love, forever...[CHORUS:]

[Aurienne(Tristan):]

The mystery of love

I have learnt,

in this journey through my endless wildest passions,

Every breath, every heartbeat,

leave a message that will last forever,

and ever[Aurienne (Tristan):]

Now the end is knockin' at my door,

and my life will go on,

the land is calling my name,

chasing truth internally,

well I have to leave my heaven,

my destiny changes its curse[PRE CHORUS:]

[Aurienne (Tristan):]

Another sky I reach for,

another breath I take,

Someday, I know,

my eyes will meet yours Now I wonder how.. my life will be

I wonder how my life will go on... I do wonder[#CHORUS]
