

Kami-Iro Awase (feat. ThunderScott)

[Adriana Figueroa](#)

The fragil workings of a clock begin to run
The gears are turning and a revolution has
Begun

Monotony and apathy infect you from afar
The time has come to figure out
Who you are

(Reaching for your hand)

Now your destiny's twisting and winding
in a maze that you can't seem to escape

Even though this world is fading

There's still a glimpse of the future awaiting
(Reaching for your hand)

Searching for a hope within

But the line to despair is so paper-thin

It's the nature of the system

It's the way of your existence

(Take me by the hand)

Depravity beckons

(Take my hand)

Let your despair awaken
