Rest Of My Life

Kevin Mccall

Baby Love Its getting cold hold me!
My head is down, so she makes many tears
Might have to go away tonight,
Cause i got a feeling, my days are numbered
This might be the day
I close my eyes for eternal sleep,
No more waking to Sunday mornings now,
Live to learn, learned a lot,
Tonight, I'm clocking out
chorus:
This is my last kiss, my last wish,
My last chance, my last dance,
My last kiss to give you my love
Its the last time I'm holding you
Spend the rest of my life with you tonight,
Spend the rest of my life with you tonight,
Spend the rest of my life with you tonight,
Spend the rest of my life with you,
My life with you
I want to close it in yeah
Wondering when I'll see you again
And now you wonder why
So this time i won't be right back
But I'll be a shining star
A memory in your heart

I close my eyes for eternal sleep,
No more waking to sunday mornings now,
I lived to learn, i learned a lot,
Tonight I'm clocking out
chorus:
This is my last kiss, my last wish,
My last chance, my last dance,
Last kiss to give you my love,
Its the last time I'm holding you
Spend the rest of my life with you tonight,
Spend the rest of my life with you tonight,
Spend the rest of my life with you tonight,
Spend the rest of my life with you,

My life with you
I close my eyes for eternal sleep,
No more waking up to Sunday mornings now,
I lived to learn, i learned a lot,
Tonight I'm clocking out
chorus:
This is my last kiss, my last wish,
My last chance, my last dance,
My last kiss to give you my love,
Its the last time I'm holding you
