

End of Time

Lacuna Coil

You've build your lies
Above the sin
You hold my hand before the end comes
Forgetting me for what I've done till the end of day'Cause I belong to you
Cause I am part of you
I am dying in your arms
Its time to go
I can't make it throughI've come to realize
Tonight my dear the end of time
Its not so faraway
We cannot pray to save our livesI can feel you and I think that everything you wanted to me
Was the mirror of your dreams but I couldn't believe what you take
As I belong to you
My flesh and blood in you
I am burning in this fire
It's time to go I can't make it throughI've come to realize
Tonight my dear the end of time
Its not so faraway
We cannot pray to save our livesI've come to realize
Tonight my dear the end of time
Its not so faraway
We cannot pray to save our livesI'm coming home again and now I know where I belong
Reeling from my instincts
Cause i realize I'm not aloneI've come to realize
Tonight my dear the end of time
Its not so faraway
We cannot pray to save our livesI've come to realize
Tonight my friend the end of time
Its not so faraway
We cannot pray to save our lives
