

Ultimate Love

[Phil Vassar](#)

Never seen the Mona Lisa
Never walked across the moon
Never been to Casa Blanca
But I've been to Cancun
I'll never make the Fortune 500
On what I get paid Please don't pity me
'Cause I've got everything I need Oh life don't get no better
I could live forever and never top this
Oh I'm in poll position, got a sweet suspicion
There ain't nothin' I've missed
Baby look at us standing in the middle
Of this ultimate love When I was seventeen
I shook Joe Namath's hand
Once I won karaoke singin' "Piano Man"
One time in Vegas I won me 700 bucks
That's all real cool stuff but it don't measure up No life don't get no better
I could live forever and never top this
Oh I'm in poll position, got a sweet suspicion
There ain't nothin' I've missed
Baby look at us standing in the middle
Of this ultimate love Well I don't know too much
But I know this love
Is bigger than the both of us, yes Life don't get no better
I could live forever and never top this
Oh I'm in poll position, got a sweet suspicion
There ain't nothin' I've missed
Baby look at us standing in the middle
Of this ultimate love, love, love
