

# Don't Do Me This Way

## One Way

Honey, what is wrong?  
The kisses are not quite the same  
You don't hold me anymore  
Is someone knocking on my door  
Don't do me this way  
Don't do me this way  
Don't do me this way  
You don't say my name  
I could hear it so warm before  
Have you found somebody new?  
Are you ending the love we grew?  
Don't do me this way  
Don't do me this way  
Don't do me this way  
Simply because I love you  
I want you, I need you  
I'm asking you don't do me this way  
Simply because I love you  
I want you, I need you  
I'm asking you don't do me this way  
Simply because I love you  
I want you, I need you  
I'm asking you don't do me this way  
Simply because I love you  
I want you, I need you  
I'm asking you don't do me this way  
Don't do me this way  
Don't do me this way  
Don't do me this way  
Simply because I love you  
Simply because I love you  
I want you, I need you  
I'm asking you don't do me this way  
Simply because I love you  
I want you, I need you  
I'm asking you don't do me this way
