

All I Want (London Session)

LCD Soundsystem

Wait for the day you come home from the lonely part
And look for the girl who has put up with all of your shit
You never have needed anyone for so long You learn in your bed you've been gone for too long
So you put in the time, but it's too late to make it strong Now all I want is your pity
Or all I want are your bitter tears
Yeah, all I want is your pity
Or at least all I want are your bitter tears All I want is your pity
Oh all I want are your bitter tears
Yeah, all I want is your pity
Oh all I want are your bitter tears Wake with a start
And the dog and the girl are gone
So you pack up your things
And head into the lame unknown
You never had needed anything for so long And now all I want is your pity
And all I want are your bitter tears
Now all I want is your pity
And all I want are your bitter tears From now on, I'm someone different
Cuz it's no fun to be predictably lame
From now on, let's do it different
Cuz I just want what I want Take me home
Take me home
Take me home
Take me home
