

# Loserville

## Freakwater

It's a monument valley of concrete  
On the plain where the styrofoam roams  
She hits the trail by the charity store  
For the cavern of the mobile phones  
She wades ankle deep across whino creek  
To the rail where the stagecoach waits  
And there should be one in a day or so  
If it isn't running late  
'Cause she lives on a reservation  
With a baby called 'shut up and wait'  
And the missionary school by the alehouse  
Is teaching him how to hate  
In loserville...loserville  
It's 15 miles outside of luck  
They live on beer and pills  
Now she takes him over to grandma's  
Because her cousin gets back tonight  
All day he's been out hunting  
And they're gonna do the thing with the pipe  
'Cause her man is a long time missing  
He got lost in the firewater fight  
Sometimes she hears him when the moon is out  
Screaming at the door in the night  
In loserville...loserville  
It's 15 miles outside of luck  
They live on beer and pills  
Loserville...loserville  
A couple of lifetimes out of hope  
Out there over the hill  
It's the fastest growing false economy  
The capitol of welfare state  
They built a wall around loserville  
But they didn't build a gate  
I spent half my life getting out of this place  
It's everybody's well-laid plan  
You can take the boy out of loserville  
But you can't take the place from the man  
Loserville...loserville  
It's 15 miles outside of luck

You live on beer and pills  
Loserville...loserville  
A couple of lifetimes out of hope  
Out there over the hill
