

A Place to Sleep Among the Creeps

Light Beam Rider

2. A Place to Sleep Among the Creeps
and we chase our tails,
around in circles like we drink,
because we like our tails,
at least we like to think.
Preacher told me,
my whole family is gonna die,
we cling to poison,
like a moth to a light,
and my whole life I've been running scared,
I've got demons in my hair they say
dear son, you get lost in the moments,
but i think i'll be alright
you can collect your money,
and buy your afterlife,
but i'll keep my sin tucked tight,
i admit i'm scared so lets drink until the sunlight. teacher told me,
nevermind those pious freaks
pity those poor folks
and find a place with the creeps
push your luck and never care,
Feed those demons in your hair,
dear son, go get lost in the moments
but i think i'll be alright
you can collect your money,
and buy your afterlife,
but i'll keep my sin tucked tight,
i admit i'm scared so lets drink until the sunlight.
