

# Long Time Ago

## Spain

One time long ago  
When the sun had dimmed it's glow  
When the clouds were filled with  
Rain and cold That was a long time  
That was a long time  
A long time ago Love has left me all alone  
Her secrets left they're better left untold  
Why oh why she left I'll never know But that was a long  
That was a long time  
A long time ago
