

# Monster (intro)

## Killer Mike

Peace will never tame the hatred in me  
I'm too restricted  
Separated from your society  
I'm a new breed of species  
A curse to lips that speak my name  
I'm different, twisted, my mind is not the same  
For those who deny the truth but seek to try and find it  
You my friend are blind to the truth for you are simple minded  
My ways are called abnormal  
They treat me as if forsaken  
But all shall feel the wrath  
Just like when my heart was taken

And if these words fail to reach the ears of the limited few  
You won't know but when I strike  
You'll wish that you would've knew  
This beast is on the loose  
If you trust a life than destroy it  
For it is too realistic for you to simply ignore it  
I've given a fair warning  
Now beware because I'm cutting loose  
A new terror walks the earth and now it's all up to you  
If all hope should fail  
And you should sit and ponder  
Your fate has been decided by one dangerous monster
