You've Got That Way

Liz Longley

I wasn't looking
No love never crossed my mind
You came along
Talking all sweet, and slow, and kind
And look what you've done
You've changed the game
Just that look in your eyes
And the way you say my nameYou've got that way
You've got a way of making everything alright
You've got that way
You've a way of waltzing in and changing my whole life
Can't you see you've changed my life
Cause you got that wayMost love don't last
If it ever gets this far it all, well
the odds are stacked against us
But i know we'll never fall
Cause you stand so strong
You stand so strong in my heart
Whether were alone together
Or a million miles apartYou've got that way
You've got a way of making everything alright
You've got that way
You've got a way of waltzing in and changing my whole life
Can't you see you've changed my life
Cause you've got that wayI know i was stubborn
Just a woman looking for the man of her dreams
But you're all that
You're all that and more to meYou've got that way
You've got a way of making everything alright
You've got that way
You've got a way of waltzing in and changing my whole life
Can't you see you've changed my life
Cause you've got it
You've got it
You've got that way
