Alone

James LaBrie

Don't want to lie to you
Don't want to cause you pain
But it's all I ever do
And it's driving me insaneSo how much deeper will I sink
So how much further will I dare to go
I've gone so far that I can't think
Can't take it all away
But I want you to knowI never meant to hurt you
What did I turn into
And now... I just have this feeling
Sorry's lost its meaning
And I feel alone...It's not the same tonight
And will never be again
I was wrong and you were right
Now I have this mess I'm inI can't continue on my own
The guilt I carry now is much to bare
For Heaven's sake answer your phone
Can't take the past away
But honestly I swear...I never meant to hurt you
What did I turn into
And now... I just have this feeling
Sorry's lost its meaning
And I feel alone[spoken words/samples]Uhh, uhh
Uhh, uhh
Uhh, uhhNow...
I never meant to hurt you
What did I turn into
And now... I just have this feeling
Sorry's lost its meaning
And now...
I never meant to hurt you
What did I turn into
And now... I just have this feeling
Sorry's lost its meaning
And I feel alone
