Hey Darling

Ace Of Base

Hey darling
Have to tell 'bout the world
Have to tell you today
Believe me now
Believe me now
You'd better believe in angels
There's no other substitute
If your loving is in your money
We all do that before we're going up in the sky
This is the sound of the world
Know they cannot hug you back
I know, I say, I do, I say
Have I told you 'bout the rest of the world
Hey darling
Hey darling
Why don't you see
You gonna twist and curl
Take a look around
You're going to be burned out
Take a look around
You're burning your candlse both ways
That I've learned from my past
You must blame it on yourself
Quench your thirst with memories
There's no point in being stressed
I've done, I've been, I've seen all that
That is the thing I have learned

Hey darling
Have I told you 'bout the rest of the world
Hey darling
You gonna twist and curl
Why don't you see
Take a look around
Hey darling
Take a look around
Have I told you 'bout the rest of the world
Hey darling (ouuh, oooooh)
Have I told you 'bout the rest of the world (Got to tell u ...)

I'm never gonna change my mind
No, I'm never gonna change my mind
Believe me now
Believe me now
Hey darling
Have I told you 'bout the rest of the world
Hey darling
Why don't you see
Hey darling
You gonna twist and curl (Got to tell u ...)
Hey darling (ah uh)
Hey darling (have to tell you today)
Hey darling (have to tell you ...)
Hey darling (believe me now
