It's Not Worth It

Dils, The

Don't tell me you want out of this
Don't say it's time for us to quit
Don't say goodbye, this can't be it
Baby please, 'cause it's not worth itYou came into my life
And it's so funny how you
Made everything right
And now you're saying to me
Something ain't rightWhat did I do, did hurt you?
Baby can you tell me
How to dry your eyes
But let me say, I never
Meant to make you cryIf anything I meant to
Be right by your side
How did I go wrong?
When my love is strong
And all it ever wanted was youIf I can ease the pain
Whatever it takes
That is what I'll do
Why do you feel this way
Baby you don't have to
Baby please, 'cause I am here for youDon't tell me you want out of this
Don't say it's time for us to quit
Don't say goodbye, this can't be it
Baby please, 'cause it's not worth itDon't tell me you want out of this
Don't say it's time for us to quit
Don't say goodbye, this can't be it
Baby please, 'cause it's not worth itYou mean the world to me
And all I do is try to
Give you all of me
I never do anything
That wouldn't be pleasingTo you I never knew
That you were hurting
And I'll take the blame
For anything that I've done
That has 'caused you painI never meant to hurt you
In any way
So this day I wanna say
Baby please, forgive meIf I can ease the pain
Whatever it takes to

That is what I'll do
Why do you feel this way
Baby you don't have to
Baby please, 'cause I am here for youDon't tell me you want out of this
Don't say it's time for us to quit
Don't say goodbye, this can't be it
Baby please, 'cause it's not worth itDon't tell me you want out of this
Don't say it's time for us to quit
Don't say goodbye, this can't be it
Baby please, 'cause it's not worth itDon't wanna see you this way
What must I do to make it all brand new
Let me take the pain away
Anything for you, 'cause baby I love you
Don't wanna see you this way
What must I do to make it all brand new
Let me take the pain away
Anything for you, 'cause baby I love youDon't tell me you want out of this
Don't say it's time for us to quit
Don't say goodbye, this can't be it
Baby please, 'cause it's not worth it
