

Call Me

Tweet

Shake it, shake it
Shake it, shake it
Shake it, shake it
Shake it, shake itBounce, bounce
Bounce, bounce
Bounce, bounceBaby, you the man 'cause you put it on me
And every morning I roll over and feel you touching on me
I got another man but he ain't like you
And I can't be your baby mama though I'd like toC-c-call me real late at night
When my man's asleep and take a red-eye
To the West Side, up and down my spine
And let you feel what you've been missing, I'm so bona fideCall me, ooh, when you need me
Baby, you don't have to worry
Call me, we can do, we can do
SomethingCall me, call me, ooh, when you need me
Baby, you don't have to worry
Call me, we can do
Oh, somethingBaby, take my hand when you're feeling lonely
It don't matter where we're at and let me put it on you
I got another man but he ain't like you
And I can't be your live-in lover though I'd like toC-c-call me at the break of dawn
I'll be sure to meet you with no panties on
We can slip and slide, we can take a ride
Lots of loving, reminiscing, I'm so bona fideCall me, oh, when you need me
Baby, you don't have to worry
Call me, we can do
SomethingCall me, oh, when you need me
Baby, you don't have to worry
Call me, we can do
SomethingShake it, shake it
Shake it, shake it
Shake it, shake it
Shake it, shake itBounce, bounce
Bounce, bounce
Bounce, bounce
Shake it, shake it
BounceYou can call me, call me
You can call meOh, call me, ho, when you need me
Baby, you don't have to worry

Call me, we can do
Something Oh, call me, oh, when you need me
Baby, you don't have to worry
Call me, oh, something Call me
