Friendly Ghost

Eels

If you're scared of dying you better not be scared to live
I've been spending all my days giving all I can give
Last night I heard someone walking through my bedroom door
What they want I'm not exactly sure
A friendly ghost is all I need
A friendly ghost is all I need
Working time on a broken watch countin' days till the
The old shop sells me back my saxophone
And everyone's gonna leave me alone
Two times I thought I heard someone knocking on the glass
I hit my head and prayed that it would last
A friendly ghost is all I need
A friendly ghost is all I need

If you're scared of dying you better not be scared to live
I've been carrying round a grudge I think I better forgive
Last night I heard footsteps walking on the attic floor
Got up and I opened up the door
A friendly ghost is all I need
A friendly ghost is all I need
If you're scared of dying
(A friendly ghost is all I need)
You better not be scared to live
(A friendly ghost is all I need)
I've been spending all my days giving all I can give
(A friendly ghost is all I need)
