Something's Gotta Give

Agnostic Front

It's me or you and something's gotta give
You take from me all that is pure
A lesson I have learned, now's your chance to turn
And walk on bridges that you've burnedToo much shit can't get ahead, something's gotta give
I don't know friend or foe, something's gotta give
Come at me your gonna lose, don't piss me off
Don't light my fuse, the choice is never yours of course
And I'll survive with no remorse, go
