## **Passion**

## **Blackalicious**

An open microphone can be dangerous

Let's tune in on two of the greatest MC's out therePassion, the will to win, the spark within

Passion, the strength within the hearts of men

Passion, the drive to press, to strive for best, to rise

You've just arrived the quest is driven through Passion, to play through pain and love the game

Passion, to break the chain and blaze the flame

Passion, the fight for rights to love your life, to rise

You've just arrived the quest is driven through passionPropaganda, positive propositions

Politician, musician and a triple optician

Still part of my missions to slaughter the opposition

Critics that don't get it, I tell 'em to stop bitchin'I do without blacks, I've done it without cash

Strictly for the love of the art, that's passion

Flashin', rappin' or jammin' or sound blastin'

When Quannum meets Expansion, this is what happensRunnin' through the jungle with a flare gun

Arrow-arms, zonin' out my mind

Like I was hooked on heroine

Take the fire, turn it up and blaze whole forest down

Pullin from within' the inner insane warriorCalifornia to the District of Columbia

Hella high octane, lookin' through a lazy eye

All ablaze, fire, flames, lightin' up the sky

Runnin' through the burnin' sun, yellin'

Ride nigga, ride nigga, ridePassion, the will to win, the spark within

Passion, the strength within the hearts of men

Passion, the drive to press, to strive for best, to rise

You've just arrived, the quest is driven through Passion, to play through pain and love the game

Passion, to break the chain and blaze the flame

Passion, the fight for rights to love your life, to rise

You've just arrived, the quest is driven through passionDesire, the fire that inspires

I don't state facts, I state buildings, like empires

Passion, the journey, the learnin', the time-turnin'

The searchin', the mind yearnin' to wake and find mornin'Passion, the ladies, they love the long-lastin'

Askin' for action, braced for satisfaction

Passion, the black-skinned African

Jazz-men of the half in Aspen

Relaxed, gettin' my back rubbedI'm still here, I've seen cats get killed here

I've seen cats make a mil but millionaires still fear

You can buy airplanes but you can't buy cheers

Blackalicious, dilated, vibratin' your earsSent vibrations for years, I've been waitin' for years

I've been patient for years, we ain't playin' this year

We hold stake in this here, it ain't safe for this year

We in the zone watch next level, takin' it there, this is Passion, the will to win, the spark within Passion, the strength within the hearts of men

Passion, the drive to press, to strive for best, to rise

You've just arrived, the quest is driven through Passion, to play through pain and love the game

Passion, to break the chain and blaze the flame

Passion, the fight for rights to love your life, to rise

You've just arrived, the quest is driven through passionLet's listen to this recipe for Chief Xcel

The most astonishing Soul

New seeds of wisdom, craft, and skill

Check it out, y'all

Listen now, to this classic moment from

DJ's, around the world, DJ's around the worldHad a rough week, it got beat by passion

Saddled up, tweaked off a beat, started mashin'

Matador Rica, the heat from the heater

In her world, dwellin', hear the world, yellin' for a leaderI don't bother with the dealers, I take it to the lab

It's Rakaa chillin' with Babs, Xcel, gift of gab

I grab mics and fans gravitate, I can't waste it

My whole life, I wanted it so bad, I could taste it Passion, the will to win, the spark within

Passion, the strength within the hearts of men

Passion, the drive to press, to strive for best, to rise

You've just arrived the quest is driven through Passion, to play through pain and love the game

Passion, to break the chain and blaze the flame

Passion, the fight for rights to love your life, to rise

You've just arrived, the quest is driven through passion
