

# It's Better to Dream

Cliff Richard

IT'S BETTER TO DREAM - CLIFF  
Dawn it breaks the sky is clear,  
Shadows all but disappear  
Morning comes and you're no longer here,  
it's better to dream of you.  
The twilight sees me with you,  
and now there's a lonely fool  
Who knows you'll never feel the way I feel,  
though it isn't real, It's better to dream. Days seem longer than they are,  
waiting for my wishing star  
The moon and I don't wonder where you are  
'Cos that's when I dream of you  
The twilight sees me with you,  
and now there's a lonely fool  
Who knows you'll never feel the way I feel,  
though it isn't real, It's better to dream. Music  
So I lay me down to sleep  
and pray that you will come to me  
Until the misty morning here you'll be  
It's better to dream of you.  
The twilight sees me with you,  
and now there's a lonely fool  
Who knows you'll never feel the way I feel,  
I know it isn't real,  
You never will be mine, so I close my eyes  
It's better to dream.
