

Strongman

Luscious Jackson

When a man can take a stand
And wash his hands of his scams
And watch his woman stand unafraid
Aid her in her fight to get paid
Help her get her medicines made
Let her step on out of the shade I will call him

Super solid

I will call him

Super solid It takes a strongman

To stand by a strong woman

Yes it does

It takes a strongman

To stand by a strong woman

It takes a strongman

Yes it does Is love sex?

Is the soul vexed?

Is the earth next?

We need respect Can we love outside of the clan

Where's the sister in brotherman

Back to back

Divided we stand

Can we put some love

In the land? I will call him

Super solid

I will call him

Super solid It takes a strongman

To stand by a strong woman

Yes it does

It takes a strongman

To stand by a strong woman

It takes a strongman

Yes it does Conquering, stealing

Wheeling and dealing

Tell me is this planet

Healing?

Conquering, stealing

Wheeling and dealing

Tell me is this planet

Healing? When a man knows

Where he came from
He can't tell me
I am shameful
And I will call him
Super solid
I will call him
Super solidIt takes a strongman
To stand by a strong woman
It takes a strongman
To stand by a strong woman
It takes a strongman
It takes a strongmanHe can stop trying to get even
He will know he's here for a reason
To stand beside, his woman in peace
She's got the way to release him
