Leap Year

The Matinees

Save my money for that plane ride
Horn of plenty, heavy sunlight, autumn's bounty
Bread and red wine in a hurry
But there's so much time
I will wait for you
Growing love but like water
Time will always slip through
I will wait for you but please come soon
The wind sounds angry but my coat's kind
Wrapped in blankets in the daylight
Winners longing some are close behind
In a hurry but there's so much time

I will wait for you
Growing love but like water
Time will always slip through
I will wait for you
Is it in a plan? written in your hand
Believe or understand something other than
Fear is blinding lights, squeeze my eyes so tight
Could you make a flower grow? Would you let me know?
I will wait for you
Growing love but like water
Time will always slip through
I will wait for you but please come soon
