

# Leap Year

## The Matinees

Save my money for that plane ride  
Horn of plenty, heavy sunlight, autumn's bounty  
Bread and red wine in a hurry  
But there's so much time  
I will wait for you  
Growing love but like water  
Time will always slip through  
I will wait for you but please come soon  
The wind sounds angry but my coat's kind  
Wrapped in blankets in the daylight  
Winners longing some are close behind  
In a hurry but there's so much time

I will wait for you  
Growing love but like water  
Time will always slip through  
I will wait for you  
Is it in a plan? written in your hand  
Believe or understand something other than  
Fear is blinding lights, squeeze my eyes so tight  
Could you make a flower grow? Would you let me know?  
I will wait for you  
Growing love but like water  
Time will always slip through  
I will wait for you but please come soon
