Our Truth

Tendead

Theres a body
And a soul
In the garden
Theres no control
We only raise our hands high, for youSee I was lonely
So were you
The tree of knowledge
Was in our view
We only raise our hands high, for youYouve given us a model
Which no one can abide
Now we have built the walls up
This is what we call lifeGoYouve given us a model
Which no one can abide
Now we have built the walls up
This is what we call lifeTheres a story
From our youth
It speaks of freedom
It is our truth
We only raise our hands high for you
For you
