My War

Black Flag

My war you're one of them
You say that you're my friend
But you're one of themYou don't want to see me live
You don't want me to give
'cause you're one of themMy war you're one of them
You say that you're my friend
But you're one of themI might not know what a friend is
All I know is what you're not
'cause you're one of themMy war you're one of them
You say that you're my friend
But you're one of themI have a prediction, it lives in my brain
It's with me every day, it drives me insane
I feel it in my heart, that if I has a gun
I feel it in my heart, I'd wanna kill some
I feel it in my heart, the end will come
Come on!!My war you're one of them
You say that you're my friend
But you're one of themTell me that I'm wrong
Try to sing me your ego song
You're one of themMy war you're one of them
You say that you're my friend
But you're one of themMy war.
