

Words of Power (Power Mix)

Funker Vogt

Your lungs are filled with rotten air
diseases rule the world
people ar dying on the streets
while you pass them by Your faith will keep you moving on
in a restless world
Here you have to find yourself
in this place without grace Speak the Words of Power
and you will survive
See the golden flower
a symbol for your life So be faithful to yourself
believe in your vision
The end of your fight is nearly finished
don't give up now It's the time for a new start
based on your faith
All you need is a strong will
to recreate the Earth Speak the Words of Power
and you will survive
See the golden flower
a symbol for your life
