

# Public Bath

## Shonen Knife

I go public bath some nights  
It is near my house  
Mineral, bubble, electric  
Baths are very good for my body I like public bath, I like public bath  
I like public bath, I like public bath  
I like public bath, I like public bath  
I like public bath, I like public bath I'm looking forward to eat  
Ice cream after my bath time Outside cold wind  
Inside hot steam  
Singing in bath tub  
Water works hot and cool  
I'm washing my body I like public bath, I like public bath  
I like public bath, I like public bath  
I like public bath, I like public bath  
I like public bath, I like public bath I'm looking forward to eat  
Ice cream after my bath time I go public bath some nights  
It is near my house  
Mineral, bubble, electric  
Baths are very good for my body I like public bath, I like public bath  
I like public bath, I like public bath  
I like public bath, I like public bath  
I like public bath, I like public bath I'm looking forward to eat  
Ice cream after my bath time I'm looking forward to eat  
Ice cream after my bath time
