

Guided By A Voice

Feeder

I don't wanna get drunk
Forget about the memories
I just wanna heal that
Aching inside
I just can't be lonely
Guided by a voice
I just won't be broken
Knowing that I have a choice
Maybe it's time to make you
Feel that you still belong
Maybe it's time to set things free
It's our time, so think about it
I know you wanted to
It's our time, so think about it
Can't live without it
I dream about us now
Sentimental values
Water under the bridge
Voices of a nation
Echo in my head
I just can't be lonely
Guided by a voice
I just won't be broken
Knowing that I have a choice
Maybe it's time to make you
Feel that you still belong
Maybe it's time to set things free
It's our time, so think about it
I know you wanted to
It's our time, so think about it
Can't live without it
I dream about us now
Just can't wait
Can't keep this silent
I just can't wait
Can't keep this silent
I just can't be lonely
Guided by a voice
I just won't be broken

It's our time, so think about it
I know you wanted to
It's our time, so think about it
Can't live without it
I dream about us now
I dream about us now
I just can't wait
Can't keep this silent
