

Haley

War Called Peace

If I could take you to a higher level but then I guess you'd go
Things I would show that life you showed me in spirit like body

Life is like a jig saw puzzle

you try to build it only to realize your just a piece

and if you find a piece that fits to you

all I say is give love.

My mind is racing what could I have done

it always comes this way yeah

the hardest thing i ever had to say to you

I was strung-out again

but Life is like a jig saw puzzle

you try to build it only to realize your just a piece

and if you find a piece that fits to you

all I say is give love.

Cause if you'll listen

I know your with me

the spirit lives eternally

the love you've gave me

the love you've taught me

through my soul it will shine forgiveness
