Sky Flashings

Earthsuit

Who keeps the balance in suspended skies
Supporting earth with inward thrust
Let the audience refocus eyes
On all sky flashings in front of usWho's seen in the midst of unsealing skies
It's revelation that all can see
And our hearts remain hushed inside
Mindless of fantasia we enjoy for freeIt takes a miracle, kaleidoscope superior
Spinning vortex, bleeding shades of night to daySovereign pictures center stage
Genius of the cosmic craze
Days and nights keep on and on
God abroad in blended songIn our sky flashings
In our sky flashings
In our sky flashings
In our skyWho can deny this pure design
Emanating views never seen
Revealing art to mortal minds
Entranced in our phantasmic dreamsSovereign pictures center stage
Genius of the cosmic craze
Days and nights keep on and on
God abroad in blended songIn our sky flashings
In our sky flashings
In our sky flashings
In our skyIt takes a miracle, kaleidoscope superior
Spinning vortex, bleeding shades of night to daySovereign pictures center stage
Genius of the cosmic craze
Days and nights keep on and on
God abroad in blended songIn our sky flashings
In our sky flashings
In our skyDays and nights keep on and on
Days and nights keep on and on
Days and nights keep on and on
God abroad in blended songIn our sky flashings
In our sky flashings
In our sky flashings
In our sky
